TO THE TRADE

WE are pleased to again present to the trade our Annual Catalog of Ladies' Desks. We feel confident in saying that we make the most popular line of low and medium priced desks on the market and the wide diversity of patterns shown in this catalog cannot but appeal to every dealer.

The portable construction of our desks is still a prominent feature which is now universally appreciated. We wish to thank the trade for its kind treatment of us in the past and respectfully solicit its future orders which will always receive our best attentions.

Very truly yours,

THE CRON-KILLS CO.

July 1st, 1905.

Not Portable

Width 28 in.

NOTICE.

As will be observed, a portion of the Desks shown in this catalog are listed as "Not Portable." The remainder of the patterns shown are listed "Portable." This feature needs no introduction but for the benefit of those to whom our Knock Down arrangement is not familiar we would suggest the following directions which practically cover all the desks listed as "Portable."

DIRECTIONS.

Attach both sets of legs to the loose front rail. Turn the body of the desk upside down and rest on top; then put the legs and rail in place. Run all screws in tightly, using a large screw driver. All screw holes are started as all desks are set up complete before leaving the factory, and if properly set up will be found perfectly solid.

THE CRON-KILLS CO.
